## PREFACE

THIS part of the *Catalog of Copyright Entries* contains lists of the domestic and foreign works registered in the Copyright Office in Classes G, H, I, J and K from January 1, 1949, through June 30, 1949. Included also are art and photographic materials registered as books, and greeting cards registered in all classes. Renewal registrations in these classes made in this period are listed in Part 14A of the *Catalog*.

**Arrangement.**—The works listed in this issue are arranged alphabetically by main headings (name of author, or for photographic works and greeting cards, name of copyright claimant) under five captions: (1) *Works of Art, Reproductions of Works of Art, and Prints and Pictorial Illustrations*, which includes registrations in Classes G, H and K. These works comprise original paintings, drawings, designs for works of art, and three-dimensional art objects, published and unpublished; published reproductions of works of art in either the same or a different medium; and published prints and pictorial illustrations, including picture post cards, cartoons, and prints used for calendars, posters and other commercial and artistic purposes. (2) *Scientific and Technical Drawings*, which includes registrations in Class I. These works comprise both published and unpublished charts, architectural and engineering plans and drawings, mechanical drawings, and anatomical models including other plastic works. (3) *Photographic Works*, which includes registrations in Class J. These works comprise both published and unpublished photographic prints, film strips, slide films, stereoscopic transparencies and slides. (4) *Greeting Cards*, which includes registrations of greeting cards regardless of the class in which registration was made. (5) *Selected Books in Art and Photography*, which includes selected books in art and photography registered in Class A. The list is comprised of books which consist largely or primarily of reproductions, books which list or describe photographs or works of art (including those devoted to the works of individual artists and photographers) and catalogs of exhibitions. Entries included in this section also appear in Part 1A of the *Catalog*.

Cross-references from authors and joint claimants are included in the photograph and greeting card sections. In other sections there are cross-references from copyright claimants, pseudonyms, editors, joint authors or

artists, and from forms of names contrary to normal usage in the particular language.

**Entry.**—The main entry usually includes, in addition to the heading (the name of the author or the copyright claimant), the title, other essential names associated with the work, a description of the pictorial content of the item, and a brief statement describing the physical nature of the material. The physical description is not given for registrations in Class J, unless the material is other than a photographic print. The name of the publisher and place of publication are given when the publisher and claimant are not the same. When the address is given in the statement of copyright facts the claimant is also the publisher.

**Copyright Data.**—The portion of the entry giving the facts of copyright registration begins with the copyright symbol © and consists of the following items: (1) name of the copyright claimant, if it differs from the name in the heading; (2) either, for published works, the date of publication as given in the application; or, for unpublished works, the abbreviation "1c" followed by the date of receipt in the Copyright Office of one copy; and (3) the registration number. When the copyright symbol follows the name of the author in the heading, it indicates that the author and copyright claimant are the same; in these instances the name is not repeated in the copyright statement, except for the purpose of recording a fuller form of name appearing in the copyright application.

**Deposit of Copies.**—In the case of every copyright entry listed in this part of the *Catalog*, the deposit of copies (or copy) as required by Title 17, U. S. C., secs. 12, 13, or 215, has been made.

**Authority.**—The *Catalog of Copyright Entries* is published by authority of Title 17, U. S. C., secs. 210 and 211. Section 210 provides that the *Catalog* "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

**Organization of the Catalog.**—This issue of the *Catalog* is part of Volume 3 of the Third Series. The parts are numbered according to the alphabetical sequence of classes as listed in Title 17, U. S. C., sec. 5. Letters are added to the part numbers to indicate subdivisions.

The classes of material principally contained in each part are listed, together with their respective symbols, under the title of the part in the Table of Organization which faces the title page in this issue. In each case, the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for purposes of statistical analysis of registrations. The symbol R does not represent a class designated by the Copyright Act, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. Some parts also contain registrations made under other symbols if the subject matter or type of material of these registrations is similar to that generally included in the part.

**Orders.**—The Office calls attention to the fact that orders for all parts of the *Catalog* should henceforward be sent directly to the *Register of Copyrights, Library of Congress, Washington 25, D. C.* Orders may be placed as follows: (1) as subscriptions to continue until

further notice, or (2) as orders for individual issues. All orders should state clearly the title and inclusive dates of the issues wanted. For the convenience of subscribers, payment may be made either in advance (accompanying the order) or upon receipt of an invoice from the Copyright Office. *Checks or money orders should be made payable to the Register of Copyrights.*

The price of each individual number of the *Catalog* is given in the Table of Organization. The annual subscription rate for each part is twice the price of a single number, since all parts are issued semiannually. The complete *Catalog of Copyright Entries* for one year may be secured on a subscription basis for \$20.

**Inquiries.**—The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Please address communications of this nature of the *Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.*

REMOVAL OF DEPOSITS FROM  
COPYRIGHT OFFICE

NOTICE is given to authors, copyright proprietors and other lawful claimants that they may claim and remove before January 1, 1951, any article of the following named classes of published works deposited for copyright between January 1, 1947, and January 1, 1948, not reserved or disposed of as provided by sections 213 and 214 of Title 17 of the United States Code and still remaining in the files of the Copyright Office at the time of the request for their removal. The classes of published works covered by this notice are:

- Contributions to periodicals.
- Works of art; models or designs for works of art.
- Reproductions of a work of art.
- Drawings or plastic works of a scientific or technical character.
- Photographs.
- Prints and pictorial illustrations excluding prints or labels used for articles of merchandise.

Other published works and all unpublished works are not included in this notice.

The request for the removal of any copyright deposit should be signed by the person entitled thereto or his duly authorized agent. Such request should identify the work by stating the title, author, copyright proprietor, registration number and year of deposit, and should be addressed to the Copyright Office, Library of Congress, Washington 25, D. C.

### PREFACE

THIS part of the *Catalog of Copyright Entries* contains lists of the domestic and foreign works registered in the Copyright Office in Classes G, H, I, J, and K from July 1, 1949, through December 31, 1949. Included also are art and photographic materials registered as books, and greeting cards registered in all classes. Renewal registrations in these classes made in this period are listed in Part 14A of the *Catalog*.

**Arrangement.**—The works listed in this issue are arranged alphabetically by main headings (name of author, or for photographic works and greeting cards, name of copyright claimant) under five captions: (1) *Works of Art, Reproductions of Works of Art, and Prints and Pictorial Illustrations*, which includes registrations in Classes G, H, and K. These works comprise original paintings, drawings, designs for works of art, and three-dimensional art objects, published and unpublished; published reproductions of works of art in either the same or a different medium; and published prints and pictorial illustrations, including picture post cards, cartoons, and prints used for calendars, posters, and other commercial and artistic purposes. (2) *Scientific and Technical Drawings*, which includes registrations in Class I. These works comprise both published and unpublished charts, architectural and engineering plans and drawings, mechanical drawings, and anatomical models including other plastic works. (3) *Photographic Works*, which includes registrations in Class J. These works comprise both published and unpublished photographic prints, film strips, slide films, stereoscopic transparencies and slides. (4) *Greeting Cards*, which includes registrations of greeting cards regardless of the class in which registration was made. (5) *Selected Books in Art and Photography*, which includes selected books in art and photography registered in Class A. The list is comprised of books which consist largely or primarily of reproductions, books which list or describe photographs or works of art (including those devoted to the works of individual artists and photographers) and catalogs of exhibitions. Entries included in this section also appear in Part 1A of the *Catalog*.

Cross-references from authors and joint claimants are included in the photograph and greeting card sections. In other sections there are cross-references from copyright claimants, pseudonyms, editors, joint authors or artists, and from forms of names contrary to normal usage in the particular language.

**Entry.**—The main entry usually includes, in addition to the heading (the name of the author or the copyright claimant), the title, other essential names associated with the work, a description of the pictorial content of the item, and a brief statement describing the physical nature of the material. The physical description is not given for registrations in Class J, unless the material is other than a photographic print. The name of the publisher and place of publication are given when the publisher and claimant are not the same. When the address is given in the statement of copyright facts the claimant is also the publisher.

**Copyright Data.**—The portion of the entry giving the facts of copyright registration begins with the copyright symbol © and consists of the following items: (1) name of the copyright claimant, if it differs from the name in the heading; (2) either, for published works, the date of publication as given in the application; or, for unpublished works, the abbreviation "1c" followed by the date of receipt in the Copyright Office of one copy; and (3) the registration number. When the copyright symbol follows the name of the author in the heading, it indicates that the author and copyright claimant are the same; in these instances the name is not repeated in the copyright statement, except for the purpose of recording a fuller form of name appearing in the copyright application.

**Deposit of Copies.**—In the case of every copyright entry listed in this part of the *Catalog*, the deposit of copies (or copy) as required by Title 17, U. S. C., secs. 12, 13, or 215, has been made; or, in the case of published three-dimensional works of art, there has been a compliance with sec. 202.8 (b) of the regulations of the Copyright Office published in the *Code of Federal Regulations*, 1949 edition.

**Authority.**—The *Catalog of Copyright Entries* is published by authority of Title 17, U. S. C., secs. 210 and 211. Section 210 provides that the *Catalog* “shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration.”

**Organization of the Catalog.**—This issue of the *Catalog* is part of Volume 3 of the Third Series. The parts are numbered according to the alphabetical sequence of classes as listed in Title 17, U. S. C., sec. 5. Letters are added to the part numbers to indicate subdivisions.

The classes of material principally contained in each part are listed, together with their respective symbols, under the title of the part in the Table of Organization which faces the title page in this issue. In each case, the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for purposes of statistical analysis of registrations. The symbol R does not represent a class designated by the Copyright Act, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. Some parts also contain registrations made under other symbols if the subject matter or type of material

of these registrations is similar to that generally included in the part.

**Orders.**—The Office calls attention to the fact that orders for all parts of the *Catalog* should henceforward be sent directly to the *Register of Copyrights, Library of Congress, Washington 25, D. C.* Orders may be placed as follows: (1) as subscriptions to continue until further notice, or (2) as orders for individual issues. All orders should state clearly the title and inclusive dates of the issues wanted. For the convenience of subscribers, payment may be made either in advance (accompanying the order) or upon receipt of an invoice from the Copyright Office. *Checks or money orders should be made payable to the Register of Copyrights.*

The price of each individual number of the *Catalog* is given in the Table of Organization. The annual subscription rate for each part is twice the price of a single number, since all parts are issued semiannually. The complete *Catalog of Copyright Entries* for one year may be secured on a subscription basis for \$20.

**Inquiries.**—The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Please address communications of this nature to the *Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington, 25, D. C.*
